EDUCATION

International College of Management and Technology
BSc (Hons) Computer Systems Engineering (IT)
Oct 2023 – Jan 2027 (Expected)

SKILLS

Programming Languages: JavaScript
Frameworks/Libraries: React.js, Tailwind CSS
Frontend Development: HTML, CSS
Backend Development: Node.js
Database: Mongo DB
Version Control: Git, GitHub

PROJECTS

Weather App with OpenWeather API

Developed a weather application using React.js, which effectively integrated the OpenWeather API to fetch and display live weather data including temperature, humidity, and wind speed.

To-do Application

Developed a to-do application featuring task management (add, check, uncheck, delete) with local storage integration for persistent data across sessions.

University Application

Created a responsive university website allowing users to browse courses and submit inquiry forms; integrated Web3Forms to automate email notifications with Gmail integration for instant inquiry processing.

INTERESTS

Music: Skilled guitarist and vocalist with a passion for performing and composing.
Gaming: Enthusiast with a keen interest in exploring diverse gaming genres and platforms.
Technology: Curious about emerging technologies and their impact on everyday life.
Outdoor Activities: Enjoy hiking and exploring nature trails during leisure time.
